

Cognitive Processing Therapy Workshop Training Description

Target Audience: Mental health providers who treat military personnel and veterans with PTSD.

Instructional Level: Introductory

Course Description: The STRONG STAR Training Initiative offers a two-day workshop in Cognitive Processing Therapy (CPT). CPT is a 12-session cognitive behavioral treatment for PTSD that can be personalized to include fewer or additional sessions. CPT teaches patients to recognize and challenge dysfunctional cognitions about their traumatic experiences and current beliefs about themselves and others. Through CPT, patients learn about symptoms of PTSD and the connection between trauma-based thoughts and feelings. CPT clinicians engage patients to recognize and challenge unrealistic thoughts, referred to as “stuck points,” throughout the course of treatment.

Learning Objectives:

At the end of this course, participants will be able to:

1. Describe PTSD symptoms and theory underlying CPT
2. Understand and identify pre-treatment issues
3. Use knowledge of assessment and outcome measures
4. Demonstrate knowledge and skills required to implement CPT

Primary Goal: After completion of this training, mental health providers will be able to effectively implement CPT.

Date and Time: Wednesday and Thursday, September 14-15, 2022 from 9 a.m. to 5:00 p.m. CST.

Duration: 2-day workshop

Where: Zoom

Training Cost: \$300 for eligible providers

Cognitive Processing Therapy 2-Day Workshop via Zoom

AGENDA

Please note Agenda "Time" based on **Central Standard Time Zone**

Day 1: Efficacy, Overview, and Sessions 1-3

8:30 am – 9:00 am	Log-in and Prepare to start
9:00 am – 9:15 am	Welcome and Opening Remarks
	Barriers to Learning Cognitive Processing Therapy
9:15 am – 10:30 am	Research on Cognitive Processing Therapy
10:30 am – 10:45 am	Break
10:45 am – 11:45 am	CPT Theoretical Underpinnings
11:45 am – 12:30 pm	Cognitive Processing Therapy Sessions
12:30 pm – 1:30 pm	Lunch
1:30 pm – 2:00 pm	CPT Session 1: Intro to CPT
2:00 pm- 2:30 pm	ROLE PLAY
2:30 pm – 3:15 pm	CPT Session 2: Impact Statement
3:15 pm – 3:30 pm	Break
3:30 pm – 4:45 pm	CPT Session 3: ABC Worksheets / Socratic Dialogue
4:45 pm – 5:00 pm	Wrap-up and Q&A

Day 2: Efficacy, Overview, and Sessions 4-12

ISBN-13: 978-1462528646

ISBN-10: 1462528643

Meet the Presenter

Katy Dondanville, PsyD, ABPP
Program Director, CPT Trainer & Consultant

Katy Dondanville, PsyD, ABPP, is an Associate Professor and a Licensed Clinical Psychologist. She is Board Certified in Cognitive and Behavioral Psychology by the American Board of Professional Psychology. Dr. Dondanville is the Director of Research for the Fort Hood Site of the STRONG STAR Consortium and the Consortium to Alleviate PTSD. She oversees 30 faculty and staff in the delivery and evaluation of clinical intervention research for combat-related PTSD and related conditions in collaboration with some of the world's leading clinical experts.

Special Accommodations

If you require special accommodations due to a disability, please contact the STRONG STAR Training Initiative at admin@strongstartraining.org one week prior to the workshop so that we may provide you with appropriate service.

Continuing Education

The STRONG STAR Training Initiative offers attendees 13 Continuing Education (CE) Credits for participating in the 2-day training. Participants who attend are eligible to receive 13 CE Credits. To obtain CE Credits, attendees must sign in at the start of the course and sign out after its conclusion. Inquiries regarding CE may be directed via email to admin@strongstartraining.org.

Our continuing education credits have historically been recognized by most professional state licensing boards. However, this is not guaranteed. Please check with your licensing board for verification.

The University of Texas Health Science Center at San Antonio is approved by the American Psychological Association (APA) to sponsor continuing education for psychologists. The University of Texas Health Science Center at San Antonio maintains responsibility for this program and its content.
